

Aarjan Adhikari

Experienced software developer with a focus on building engaging & accessible digital experiences

Relevant Experience

Hackathon Participant: Tech Innovators

Hackathon *August 2025*

- Collaborated with a team in a 24-hour hackathon to develop a web application aimed at enhancing user experience in online learning platforms.
- Designed and developed the UI of the app, ensuring it was easy to navigate and visually appealing.
- Conducted UX research by gathering user feedback through surveys to refine the user flow and improve overall experience.
- Led the UI/UX design of the app, ensuring it was intuitive, easy to navigate, and visually appealing.
- Successfully built a working prototype under time constraints, demonstrating teamwork and problem-solving skills in a competitive environment.

Developer *Spring 2024*

- Collaborated with designers and engineers on pro-bono projects.
- Built and delivered technical solutions according to stakeholder requirements.

Software Developer *December 2024*

- Engineered features for Android web app.
- Proposed scalable cloud solutions.
- Collaborated across teams for UI/UX improvements.
